Architecture & New Technology Committee

March 26, 2018

Eccles Broadcast Center, Dumke room

Agenda

1. Internet border security request
2. SMTP security path forward
3. ULink pilot review
4. Duo telephony option update
5. Labstats discussion from SITC
6. Open floor
7. Adjourn

1. Internet border security request

Chief Information Security Officer Randy Arvay will discuss the [Internet border security request](#) shared with ANTC earlier in the month. The group is being asked to assess the feasibility of implementing a whitelist network control at the internet border. A Network Architecture Community of Practice recommendation will be produced in order to facilitate an ANTC vote to continue the effort and develop a migration plan for implementation.

This item was approved in concept at the Strategic IT Committee level, with the request that the details of implementation be worked out in ANTC.

2. SMTP security path forward

Dave Packham will review the current email SMTP configuration and discuss an option for reducing SPAM and increasing email security with a reconfiguration.

[Slides for this item can be found on Box.](#)

3. ULink pilot review

Trevor Long will discuss the pilot of ULink, the gaming-centric network launched in Housing and Residential Education. [ULink was previously discussed at the August meeting.](#)

4. Duo telephony option update

Randy Arvay will discuss the recent SITC decision regarding Duo call my phone and SMS authentication features.

5. Labstats discussion from SITC

Teaching & Learning Technologies Director Jon Thomas will review the recent SITC discussion around the lab statistics gathering efforts for the next fiscal year.

6. Open floor

Any issues that need to be discussed here publicly before we next meet?
