Strategic IT Committee
January 16, 2018
Winder Boardroom, Park Building

Agenda

1. Making software available to students – next steps
2. Canvas add-ins that shift from free to paid
3. Security statistics and internal audit
4. Overview of Information Security Office
5. Open floor
6. Adjourn

1. Making software available to students – next steps

Cory Stokes, associate dean of Undergraduate Studies and UOnline director, will discuss the path ahead for considering how to deliver software to students remotely. This is a follow-up to the Software Anywhere summit and associated working group that met last year.

This is a discussion item, with the potential for action.

2. Canvas add-ins that shift from free to paid models

Cory Stokes will talk about a recent experience with one Canvas plug-in vendor that is affecting several classes that were using a free version of the plug-in. The vendor is now charging for the plug-in, and the overall cost would be substantial.

This is a discussion item.

3. Security statistics and internal audit

Chief Information Security Officer Randy Arvay will present an overview of significant information security statistics from the previous year, as well as discuss some issues raised by a recent internal audit. This is an information item.

4. Overview of Information Security Office

Chief Information Security Officer Randy Arvay will present an overview of the Information Security Office projects and items of strategic interest.

5. Open floor

Any issues that need to be discussed here publicly before we next meet?
