RE: Career Transition - Randy Arvay, Chief Information Security Officer (CISO)

It is with mixed emotions that we announce Chief Information Security Officer Dr. Randy Arvay's departure from the University of Utah to become CISO at Duke University Health System in Durham, North Carolina. This is a wonderful opportunity for Randy, and a significant loss for our organization.

Randy came to the University of Utah from the University of Mississippi Medical Center in May 2017. With his strong, collaborative leadership style and extensive knowledge of current information security challenges, he significantly enhanced our overall information security posture and successfully cultivated a more cybersecurity-conscious culture across the institution.

Randy's last day at the U will be July 12, 2019. In the meantime, he will assist us in launching a search for his replacement, as well as determining appropriate interim leadership for the Information Security Office. Further information will be forthcoming.

Please join us in wishing Randy all the best, both personally and professionally.
