

## New Duo 2FA self-service options available on 9/17

You're receiving this email because you're subscribed to UIT's public email list.

Two new self-service options will be added to the Duo two-factor authentication (2FA) push screen on **Tuesday, September 17, 2019**. "Add a new device" and "My Settings & Devices" will be located on the left-hand navigation, as shown below.

### Add a new device

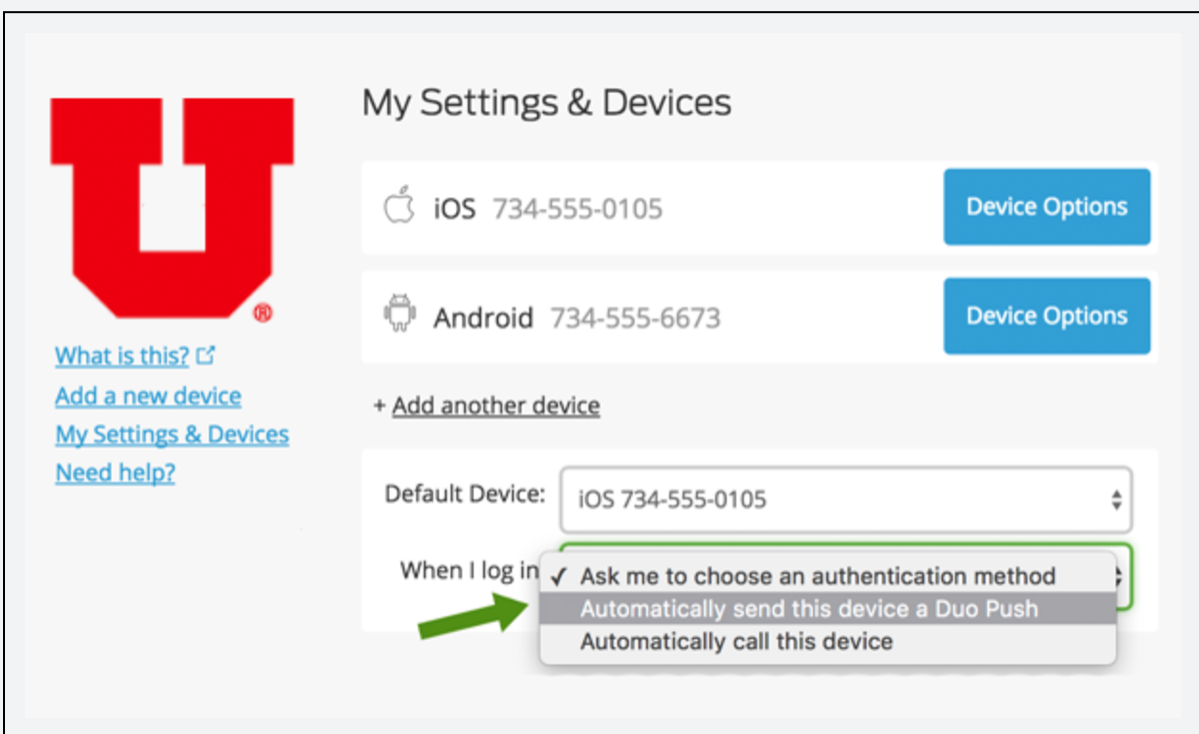

This option will allow users to add a device from the Duo push screen rather than visiting the [Duo Management Portal](#) (authentication required). [Visit this vendor web page](#) for more information.

### My Settings & Devices

This option will allow users to:

- Manage existing devices
- Reactivate Duo Mobile
- Change a device's name
- Remove a device
- Add a new device

Users will be able to set a default authentication method, shown below, which will eliminate the step of choosing either "Send Me a Push" or "Enter a Passcode" on the Duo push screen each time you sign in with 2FA.

[Visit this vendor web page](#) for more information.

If you have questions, your local IT support staff may be able to assist, or you may contact your respective help desk: UIT Help Desk (801-581-4000, option 1) or the ITS Service Desk (801-587-6000).
