NEW QUALTRICS LICENSE FOR EMPLOYEES, STUDENTS, ORGS

UIT Leadership Spotlight:
Kim Tanner, Associate Director,
Software Platform Services

Before becoming the associate director of Software Platform Services, Kim Tanner worked as a microsystems analyst, database engineer, manager for numerous IT infrastructure teams, and much more. This semester, she's also teaching an information systems class at the U.

Data Privacy Day guest column:
Be a champion of your own privacy.

When we share information on social media or shop online, we expect that our correspondence, posts, and even our shopping habits and purchases will remain confidential.

That, however, may not always be the case. That's why it's important to be active participants in discussions and efforts regarding data privacy.

Updates & Reminders

CIS portal quick tips

A [quick tips CIS guide](#) is available to help users navigate new features like keyword search and marking favorite tiles

Network news: Fast Facts
showcase last year's big wins

In 2019, the Network Services team focused on three fronts — network operations, engineering design and automation, and project coordination. Accomplishments include an upgrade of the TOAST platform and a migration of the Clinical Data Center firewall.

U must migrate off Oracle Java before May 2020

System administrators should [seek no-cost alternatives](#) before the one-time, 12-month license expires

UIT Service Guide

Available for download, [this PDF document](#) provides a high-level look at UIT services and how the organization supports its partners

Meet Your Colleagues:
UIT Account Executives

Generally speaking, Account Executives handle the IT aspects of readying a remodeled building for use. Currently, the team is juggling more than 60 projects, which can take anywhere from a few months to more than a year, depending on scope.

CHPC presentations

Holidays and closures

[Review this schedule](#) to keep tabs on 2020 university closure days and holidays

FABRIC, the future of the internet,
runs through two U testbeds

Two of the U's computing testbeds — CloudLab, for cloud computing, and POWDER, for mobile and wireless networking — will tie into the nationwide FABRIC initiative, a high-speed network on which novel internet architectures can be tested.

Stay connected for free

Students and employees who visit participating institutions can connect to the internet securely using [eduroam](#) and their U credentials

Upcoming ITIL training

There's still time to register for the [three-day course](#) in February. Dates for March and April also are available.

Udemy for Business available at no cost to U staff with an IT role

Craig Bennion, IT Service Management Process Support manager in UIT Communications Infrastructure, said Udemy provides professional development opportunities that staff would otherwise seek out from other online platforms, conferences, or alternate off-site providers.
