

## Planned Kronos downtime on 10/26 extended

*You're receiving this email because you're subscribed to UIT's public email list.*

The planned downtime for a Kronos upgrade on Monday, October 26, 2020 has been extended **from 1:00 a.m. – 5:00 p.m. to 1:00 a.m. – 7:20 p.m.** During that time, University Information Technology (UIT) and Information Technology Services (ITS) will update the Kronos time, attendance, and staff scheduling system in order to remove the current dependency on Adobe Flash Player, which will no longer be supported by major web browsers after December 31, 2020.

Kronos and Kronos Acuity+ may be unavailable during part or all of the upgrade downtime.

During the downtime, Kronos users will not be able to enter any timecard information or schedule shifts for staff through the web application. Time clocks, however, will still record punches, which will be transmitted to Kronos once server connections are reestablished.

Access the [original announcement](#). For more information about the upgrade, please visit this [UIT Knowledge Base article](#).

If you have questions, your local IT support staff may be able to assist, or you may contact your respective help desk:

- Main Campus UIT Help Desk: 801-581-4000, option 1
- University of Utah Health ITS Service Desk: 801-587-6000

Please visit the [University IT Services Status page](#) for information during this and future maintenance events.
