

## Registration is required for university websites by 6/1

You're receiving this email because you're subscribed to UIT's public email list.

To comply with the university's [World Wide Web Resources Policy 4-003, Rule 4-003D](#), all institutional websites must be registered with the [Office of the University Webmaster](#), and this information must be periodically updated.

Webmasters **must register their websites by Tuesday, June 1, 2021** by visiting the [university website registration site](#), which has options to **register a website** or **edit/retire a website registration**. These web forms are contained in the IT Service Catalog and require authentication. Webmasters are invited to confirm registration by selecting the **Search the Registry** option. Please note that websites hosted centrally with University Information Technology (UIT) and University Marketing & Communications (UMC) are already registered.

To verify the accuracy of the information going forward, webmasters will be notified and asked to confirm or update the accuracy of the registrations on a yearly basis.

The information that webmasters provide is used to build and maintain a comprehensive website registry that identifies responsible parties to be contacted in the event of an issue and helps ensure the accuracy, consistency, security, and integrity of all university websites.

If you have questions or feedback, please contact the Office of the University Webmaster at [uwebresources@lists.utah.edu](mailto:uwebresources@lists.utah.edu). For more information and resources, please visit the [U webmaster resources website](#).
