

UIT Talks recording and slides: Microsoft Exchange Online migration and Skype for Business to Teams upgrade

You're receiving this email because you're subscribed to UIT's public email list.

Thank you to everyone who participated in Thursday's UIT Talks virtual session on the Microsoft Exchange Online migration and Skype for Business to Microsoft Teams upgrade. The event was hosted by Dave Packham, manager for UMail and Collaboration in [UIT Communications Infrastructure](#).

The video recording, slides, and session description are available in Microsoft Sharepoint for those who were unable to participate in the event.

Starting in this month, UIT will begin to gradually upgrade University of Utah student, faculty, staff, and affiliate and University of Utah Health employee accounts from Skype for Business to Microsoft Teams. UIT also will begin to gradually migrate campus and hospital faculty, staff, and affiliate UMail accounts from Microsoft Exchange Server (on campus) to Microsoft Exchange Online (in the cloud).

The infrastructure projects are part of an effort to modernize the university's communication technology and better meet the needs of those working, learning, and teaching remotely. For more information, please refer to the IT Knowledge Base articles below.
