

Wi-Fi service disruptions in 33 buildings on April 28-29

April 27, 2022

You've received this email because you're subscribed to UIT's public email list.

As part of ongoing Wi-Fi upgrades, UIT will conduct planned wireless controller maintenance in 33 buildings on **Thursday-Friday, April 28-29, 2022, from 10:00 p.m. to 2:00 a.m.** A list of impacted buildings is [available in Box](#) (login required).

The process requires wireless access points to download a new operating system and code base, and reboot, which will disrupt wireless network connectivity for **approximately 30 to 40 minutes** during the maintenance window.

If you have questions, your local IT support staff may be able to assist, or you may contact your respective help desk: UIT Help Desk (801-581-4000, option 1) or ITS Service Desk (801-587-6000).

Please visit the [University IT Services Status page](#) for information during this and future maintenance events.
