

## 2 announcements: Kronos and Kronos Acuity+ maintenance with downtime on 8/23-24, Microsoft Power BI Pro for employees

You're receiving this email because you're subscribed to UIT's public email list.

### Planned Kronos and Kronos Acuity+ maintenance event with downtime on 8/23-24

Kronos and Kronos Acuity+ will undergo planned maintenance on **Friday-Saturday, August 23-24, 2019, from 10:00 p.m. - 4:00 a.m.** The systems will be unavailable during part or all of the maintenance period. Time clocks will still record punches, which will be transmitted to Kronos once server connections are re-established.

U hospitals and clinics that use Kronos Acuity+ for patient care should prepare downtime procedures for the duration of the maintenance period.

If you have questions, your local IT support staff may be able to assist, or you may contact your respective help desk: UIT Help Desk at 801-581-4000, option 1; ITS Service Desk at 801-587-6000.

Please visit the [University IT Services Status page](#) for information during this and future maintenance events.

### University employees may now purchase Microsoft Power BI Pro licenses

As part of the University of Utah's campus agreement with Microsoft, U employees may now purchase Microsoft Power BI Pro via the Office of Software Licensing (OSL) web store. Though under consideration, a student license is not currently available.

To purchase a Power BI Pro license:

- Visit [software.utah.edu](https://software.utah.edu)
- Select the VISIT OUR STORE button
- Log in with your uNID credentials
- Enter Power BI Pro in the search box
- Purchase the product in the quantity desired
- After purchase, email [software@utah.edu](mailto:software@utah.edu) with the OSL order number, and the full names and uNIDs of all end users

#### Notes:

- A Power BI Desktop client for Macs is not currently available. Virtual machines (VMs) and virtual desktop infrastructure (VDI) solutions may provide alternatives.
- Because Power BI Pro licenses are managed and assigned through the Office 365 tenant portal, it will take several days after purchase to assign the license. Once assigned, OSL will inform end users that they may log in to Office 365 and start using the product.
- Power BI Pro licenses are annual subscriptions that expire on May 31 of each year.
- Power BI Pro license prices are prorated for the number of months left on the licensing term that ends on May 31.
- Power BI Pro licenses are assigned to specific employees within an ORGID.

If you have any questions, please email [software@utah.edu](mailto:software@utah.edu).
