

## ***Downtown Data Center network maintenance with downtime on 1/19***

*You're receiving this email because you're subscribed to UIT's public email list.*

Network maintenance at the U's Downtown Data Center (DDC) will take place on **Sunday, January 19, 2020, from 12:30 a.m. – 1:30 a.m.**

There will be a one-minute network outage at approximately 12:30 a.m. affecting University of Utah Health and campus services that depend on DDC equipment, including co-location services. Traffic to/from the internet will not be affected for end users.

System administrators should validate that their system(s) are operational after 1:00 a.m. on 1/19. If any issues are observed, they should try rebooting. If issues persist, they should immediately contact the UIT Help Desk (801-581-4000, option 1) or the ITS Service Desk (801-587-6000) to open a "high" trouble ticket.

Please visit the [University IT Services Status page](#) for information during this and future maintenance events.
