*You're receiving this email because you're subscribed to UIT's public email list.*

UIT will conduct maintenance on routers that support the Fort node on **Saturday, March 14, 2020, from 10:00 p.m. - 11:00 p.m.** Routing to all nodes is designed to be redundant, however, a network disruption to services running on the Fort node is possible during the maintenance window. Cognizant staff in buildings that may be impacted are being contacted.
