Due to a recent security incident, all University of Utah employees, faculty, and staff who are not currently employed or on leave must change their uNID passwords by Wednesday, August 5, 2020 — unless you changed your password after Sunday, July 19.

Get help with the new uNID and Office 365 area security updates at the newly created Knowledge Base.

When you log in, you may want to add the University of Utah to your address book so you can avoid being denied access to your email.

Meet Your Colleagues: Fiber Team

The strategic Information Technology Architecture Committee (STC) meets every July 14. The STC members are highly qualified — they're experts in fiber optic technology.

CHPC: the project in the creation of the largest 3D map of the universe

The Sloan Digital Sky Survey (SDSS) recently released a comprehensive analysis of the largest 3D map of the universe ever created, in which a team compared galaxy redshifts in the cosmic web to the SDSS mapping data.

Juan Tizol, an astronomer at the University of Utah, is part of the research team.
