

Architecture & New Technology Committee
February 27, 2017
Eccles Broadcast Center, Dumke room

Agenda

1. Senate Bill 14 requirements
2. Campuswide printing working group
3. Network Architecture Community of Practice update
4. Campuswide electricity usage metering
5. Open floor
6. Adjourn

1. Senate Bill 14 requirements

The Utah Legislature has passed Senate Bill 14, which affects organizations that run multi-line telephone systems. [The text of the bill can be found here.](#) Barring a veto by Gov. Gary Herbert, the bill will likely require the University of Utah to meet three conditions by July 1.

1. Users must be able to make an emergency phone call by dialing 911 without a prefix.
2. The system must be able to forward the building address and room number from which a 911 call was made to emergency responders.
3. The University must ensure the accuracy of the location database, including updating any changes to the location of a telephone within one business day of completion.

Mike Ekstrom will talk about the current state of the University's telephone system, explain how these requirements will affect the University, and discuss ways the campus can work together to meet these legal requirements in the proscribed timeframe.

This is an information and discussion item, but could become an action item.

2. Campuswide printing working group

Clayton Barlow and Randy Zimmerman will talk about the efforts of the working group focused on the campuswide printing solution. [The slides for their presentation can be found in the Box folder.](#)

This is an information item.

3. Network Architecture Community of Practice update

Clayton Barlow will share with the group the discussions happening so far in the Network Architecture Community of Practice. [A paper on Network Definition can be found in the Box folder.](#)

This is an information item.

4. Campuswide electricity usage metering

Chris Pfeiffer will share information about the recent addition of network-connected electricity usage meters that have been installed throughout campus.

This is an information item.

5. Open floor

Any issues that need to be discussed here publicly before we next meet?
