2. Computer lab statistics monitoring	Action
3. Software Anywhere preliminary report	Action
4. Email Q&A and future direction	Discussion
5. Campuswide printing effort update	Information
6. Open floor	
7. Adjourn	

1. Introduce new CISO Randy Arvay

The University of Utah's new Chief Information Security Officer, Randall (Randy) J. Arvay, joined the university's staff on May 15.

Arvay was previously the CISO at The University of Mississippi Medical Center. Prior to that, he was chief of cybersecurity and quality assurance in the Joint Spectrum Center for the Defense Information Systems Agency (DISA). Arvay has been a U.S. Army lieutenant colonel, with extensive experience in networking, as well as an educational background in computer science, information systems and software engineering. He was an assistant professor at the United States Naval Academy and an adjunct instructor with the University of Miami.

For more information, see http://it.utah.edu/node4/news/april_2017/ciso.php.

2. Computer lab statistics monitoring

The ad hoc group evaluating how the university could better collect computer lab statistics will present its findings. The ANTC will be asked to discuss and vote upon the recommendations.

[Presentation materials can be found in the Box folder.](#)

3. Software Anywhere preliminary report

The Software Anywhere working group will review its discussion so far. This group is charged with evaluating the need to make software available to students regardless of physical location or time.

This group is meeting early this week, so the final materials for this presentation will be available mid-week. This agenda will be updated once those materials are available.

4. Email Q&A and future direction

Mike Ekstrom will address questions the ANTC had previously regarding campus email and discuss the future direction of email.

[Materials for this presentation can be found in the Box folder.](#)

5. Campuswide printing effort update

Jim Livingston will update the ANTC on the current status of the campuswide printing effort that was discussed in previous meetings.

6. Open floor

Any issues that need to be discussed here publicly before we next meet?
